

PRO-LOGIX

Model No. PL2410 12/24V INTELLIGENT BATTERY CHARGER

AGM
R · E · A · D · Y

INTELLIGENT • BENEFICIAL • SAFE • VERSATILE

Model No. PL2410
12/24V, 10/6/2A Intelligent
Battery Charger/Maintainer

- Automatic Operation
- 12 or 24 Volt modes
- Smart Clamp Technology
- Charges all battery types
- Temperature compensation
- Enhanced maintenance mode
- Integrated cable and clamp storage
- Meets all efficiency requirements

PRO-LOGIX battery chargers are designed to provide continuous operation in a wide variety of professional/industrial battery service environments. Advanced charging logic, robust components, quick set-up and smart display feedback mean effective and efficient charging for your operation.

PRO-LOGIX battery chargers deliver two tools in one. They function as an advanced automatic battery charger to immediately bring depleted batteries to full charge so that they can be put back into service. Plus, they function as an advanced automatic battery maintainer, conditioning and maintaining batteries in long term storage.

The **PRO-LOGIX** process results in improved battery condition and restored reserve capacity. Special **SOFT START** and **RECONDITION** routines automatically engage as needed to meet the needs of problem batteries. Whether your battery is new or in need of reconditioning, **PRO-LOGIX** is the charger for you.

Compatible with a wide variety of battery types:

AGM

**DEEP
CYCLE**

**+ FLOODED
- BATTERY**

**GEL
