New *Light-N-Carry* COB LED Flood Light Model LNC2551

Clore Automotive introduces a new 4000 Lumen COB LED Flood Light, Model No. LNC2551, from *Light-N-Carry*. The LNC2551 is an ideal answer when it comes to the tasks of Area/Flood/Site (A/F/S) light illumination. Whether on a building site, in an industrial environment or in an automotive garage, *Light-N-Carry* A/F/S lighting solutions provide bright illumination, long run times and easy recharging. The LNC2551 combines advanced COB technology, high lumen output, a removable battery, dust/water resistant housing and an easy-to-use micro-USB charging system.

The LNC2551 features three intensity settings (4000/1500/1000 lumen), allowing the operator to select the setting that best meets their needs based on the application performed. Its work light function is powered by advanced COB LED technology utilizing a Citizen CITED chip for clear, bright viewing, elimination of hard edges, cool, pleasing light and low power consumption.

The LNC2551 comes equipped with two removable batteries, which adds convenience and doubles your effective working time, allowing the light to perform for a full work day (each battery enables 4 hours of run time on the medium output setting). Plus, each battery serves as a power supply, with a 1A USB outlet to charge small electronic devices. It features an IP64 dust/water ingress protection rating, magnetic 180° swivel arm for easy mounting and a protective rubber bumper casing.

The LNC2551 includes two rechargeable lithium batteries, a wall charger with braided charging cord and a Repair Service Coupon. The Repair Service Coupon provides for a low, one-time, fixed fee repair of the unit after the warranty period, regardless of the reason why the unit is no longer working (*original coupon required to participate*). The unit comes with a 1 Year Limited Warranty.

Clore Automotive is a leader in the design, development and manufacture of automotive service equipment for professionals and consumers, including jump starters, battery chargers, battery testers, power inverters and LED lighting solutions. Clore Automotive products can be found in a wide variety of outlets servicing professionals and automotive enthusiasts, including auto parts stores, mobile tool dealers, industrial MRO distributors, farm and ag outlets and more. More information can be found at www.cloreautomotive.com.
