Press Release

January 30, 2020

New *Light-N-Carry* 120 Max Lumen Work/Torch Light, Model No. LNC312

Clore Automotive introduces **Light-N-Carry** Rechargeable Torch Lights. This new line of lighting solutions from Clore is great for the tech that needs a light that is reliable, tough and provides effective illumination. Whether you need a superior lighting solution in the workplace or your personal garage, **Light-N-Carry** Torch Lights are for you.

Light-N-Carry Torch Lights deliver a high intensity beam from their advanced LED light engines. Each model features a zoomable torch setting that allows the user to choose a broader or more focused area of illumination. Adjustment is quick and easy, with either a pull or twist of the light. All models feature a rugged aluminum housing for durability in even the harshest work environments, 5 ft. impact resistance rating and a 1-year warranty.

Light-N-Carry Model LNC312 provides versatile illumination in a compact, easy-to-carry package and features a clip for convenient storage in any pants or shirt pocket. It features a 120 max lumen work COB LED light mode with a dimmer feature, plus twist-to-zoom action to adjust the width of the beam. It also features a rugged anodized aluminum construction, a protected micro-USB charging port with charging status indicator and magnet mount for storage or hands-free use. Included with each LNC312 is a braided charging cord, a 10580 rechargeable lithium battery installed and a service repair coupon for a one-time, fixed-fee service after the warranty period.

Clore Automotive is a leader in the design, development and manufacture of automotive service equipment for professionals and consumers, including jump starters, battery chargers, battery testers, power inverters and LED lighting solutions. Clore Automotive products can be found in a wide variety of outlets servicing professionals and automotive enthusiasts, including auto parts stores, mobile tool dealers, industrial MRO distributors, farm and ag outlets and more. More information can be found at www.cloreautomotive.com.
