New *Jump-N-Carry* 1100 Peak Amp 12 Volt Jump Starter with Air System Model No. JNC550A

Clore Automotive introduces the new 12V Jump Starter with Air Compressor, Model No. JNC550A, from Jump-N-Carry. This new portable power unit offers powerful jump starting capability in an ergonomic and convenient package. It comes equipped with an integrated air delivery system and delivers 1100 Peak Amps and 300 Cranking Amps of starting power.

Inside the JNC550A beats the heart of a Clore PROFORMER battery. Clore PROFORMER batteries are specifically designed to provide extreme starting power, extended cranking duration, numerous jumps per charge and a long service life. It also is a great power delivery system, able to power 12V accessories via its DC power port, as well as small electronics via its USB port.

Plus, with automatic charging from a built-in charger, master ON/OFF switch, long 46" cables, a powerful work light and a rubberized base that won't scratch vehicle surfaces, the JNC550A is as convenient and multi-faceted as it is powerful. Its air deliver system features high CFMs to fill most passenger vehicle tires quickly and easily, an integrated gauge for confident top offs and a 24" long air hose with simple chuck for easy tire connections.

The JNC550A is chock full of features and brings the power that Jump-N-Carry jump starters are known for. It will hold its own in a busy auto shop environment, all while being the perfect companion for home use as well. A true do-it-all jump starter for everyone's automotive needs.

Clore Automotive is a leader in the design, development and manufacture of automotive service equipment for professionals and consumers, including jump starters, battery chargers, battery testers, power inverters and LED lighting solutions. Clore Automotive products can be found in a wide variety of outlets servicing professionals and automotive enthusiasts, including auto parts stores, mobile tool dealers, industrial MRO distributors, farm and ag outlets and more.
