

Heavy-Duty Jump Starters with Power supply

Model Nos. ES6000, ES1224
Heavy-Duty Jump Starters with Power Supply

ES6000 12V Jump Starter

Powered by twin high-performance ES Series batteries, the ES6000 delivers 3000 Peak Amps for heavy-duty starting in even the most difficult situations. Its 54" cables and heavy-duty clamps allow ideal placement during jump starting while its automatic charging feature enables you to keep the unit in an always-ready state

Features:

- 3000 Peak Amp
- 12 Volt Power Supply
- Battery Status LEDs
- 54" Long Cables

ES1224 12/24V Jump Starter

The ultimate in versatility, the ES1224 switches from 12 Volt to 24 Volt mode with a simple turn of a knob. Features our exclusive AWS – Advanced Warning System™, which alerts the operator to a variety of unsafe jump starting conditions with its audible warning buzzer.

Features:

- 1500/3000 Peak Amp
- 12 Volt Power Supply
- 60" Long Cables
- Heavy-Duty Clamps
